Integration of ESPD, eForms and eCertis

Meeting of the eCertis National Editors (ECNE) 24 February 2024

European Commission, DG GROW, Unit G4 Data and knowledge for policy, business and people

Objective

- The three services, eCertis, ESPD and eForms have a life on their own.
- To benefit from each other, and to make it easier for buyers, the coming months will be used to describe and define how the different services could work together.
- The main goal is that the buyer would only need to provide the information in the ESPD, and it could be taken over for eForms.
- While the integration would make it easier for buyers, it is not mandatory to do so.

Current situation

	eCertis	ESPD	eForms
Directive	23/24/25/81	24	All
Code list	Yes	Yes	Partial
Content	Editors	Buyer	Buyer

• There are several differences between eCertis, ESPD and eForms.

For example on exclusion grounds

Exclusion ground	24	25	23	81
Participation in a criminal organisation	X	X	X	X
Corruption	X	X	X	X
Fraud	X	X	X	X
Child labour and other forms of trafficking in human beings	X	X	X	-

There are differences between the criteria used under the different Directives.

Desirable future situation

	eCertis	ESPD	eForms
Directive	23/24/25/81	eCertis	All
Code list	Same	Same	Same
Content	Editors	Buyer	Copy

 Notices are often used as a reference for other buyers to see how things can be procured. Therefore, it is good if this information is also available in the notices.

Possible future workflow

Thank you
